SUBJECT INDEX

Abacavir, phase I study of abacavir (1592U89) alone and in combination with other antiretroviral agents in infants and children with human immunodeficiency virus infection, e47, 808
Abdominal symptoms, *Helicobacter pylori* and (letter), 192
Access to care. *See also* Community pediatrics; Utilization of health care services
  access for low-income children: is health insurance enough?, 1167
  scope of unmet maternal health needs in pediatric settings, 576
Accidents. *See* Injuries
Acne vulgaris, polyarteritis nodosa attributable to minocycline treatment for, 503
Addiction. *See* Substance abuse
Administrative data for quality improvement, 149 (abstract), 291
Adolescents
  age-within-school-class and adolescent gun-carrying, e64, 1022
  disclosure of illness status to children and adolescents with HIV infection (committee statement), 164
  early menarche in Japanese girls with Down syndrome (letter), 854
  epidemic of gastrointestinal tract infection including hemorrhagic colitis attributable to Shiga toxin 1-producing *Escherichia coli* O118:H2 at a junior high school in Japan, e2, 141
  epidemiology and prevention of traffic injuries to urban children and adolescents, e74, 1273
  exposure to mass media and weight concerns among girls, e36, 660
  growth, puberty, and endocrine functions in patients with sporadic or familial neurofibromatosis type 1, 1257
  hepatitis B vaccine administered to children and adolescents at yearly intervals, 1243
  high glycemic index foods, overeating, and obesity, e26, 656
  highly somatizing young adolescents and risk of depression, 1203
  metastatic Crohn's disease presenting as chronic perivulvar and perirectal ulcerations in adolescent patient, 500
  orthostatic intolerance in adolescent chronic fatigue syndrome, 116
  Pap smears in adolescents: to screen or not to screen? (commentary), 673
  parental knowledge and attitudes of Minnesota laws concerning adolescent medical care, 582
  perceptions and practices of pediatricians: tobacco intervention, e65, 1022
  polyarteritis nodosa attributable to minocycline treatment for acne vulgaris, 503
  potential infections related to anabolic steroid injection in young adolescents (letter), 694
  pregnancy-current trends and issues: 1998 (committee statement), 516
  prevalence, patterns, and correlates of voluntary flunitrazepam use, e6, 142
  prevalence of IgA-antiendomysium and IgA-antigliadin autoantibodies at diagnosis of insulin-dependent diabetes mellitus in Swedish children and adolescents, 1248
  psychological symptoms in chronic fatigue and juvenile rheumatoid arthritis, 975
  relation of overweight to cardiovascular risk factors among children and adolescents: Bogalusa Heart Study, 1175
  renal medullary carcinoma in adolescent with sickle cell trait, e22, 490
  saphenous nerve entrapment in, 161
  STD/HIV prevention trial among adolescents in managed care, 107
  study of 10,296 pediatric and adolescent Papanicolaou smear diagnoses in northern New England, 539
  work should help teens, not hurt them (commentary), 921
Adoption, international, immunization status of children (letter), 1078
Advance directives in pediatric emergency department, 826
Adverse drug reactions
  anaphylactic reaction to oral cefaclor, e50, 809
  central anticholinergic syndrome on therapeutic doses of cyproheptadine, 158
  cisapride: survey of frequency of use and adverse events in premature newborns, 469
  cisapride and proarrhythmia in childhood (letter), 856
  hypoglycemia and propranolol in pediatric behavioral disorders, 1290
  lack of vancomycin-associated nephrotoxicity in newborn infants, e48, 808
  polyarteritis nodosa attributable to minocycline treatment for acne vulgaris, 503
Advocacy. *See also* Community pediatrics
  pediatrician's role in youth violence prevention (commentary), 157
  role of pediatrician in youth violence prevention in clinical practice and at community level (letter), 1080
  role of pediatrician in youth violence prevention in clinical practice and at community level (task force statement), 173
AIDS. *See* Human immunodeficiency virus infection
Alagille syndrome, moyamoya syndrome in children with, 505
Alcoholism. *See also* Substance abuse
  children of substance abuse: overview of research findings, 1085
  outcome measures of interventions in study of children of substance-abusing parents, 1128
  prevention and intervention strategies with children of alcoholics, 1112
  reassessment of patients with diagnosis of fetal alcohol syndrome (letter), 1313
  social ecology of addiction: race, risk, and resilience, 1122
Alternative medicine, holistic pediatrics: research agenda, 902
Ambulatory Pediatric Association
  clerkship curricular revision based on Ambulatory Pediatric Association and Council on Medical Student Education in Pediatrics guidelines, 898
  commentary on publication in pediatric education, A13
  introduction to journal, A9
  invitation to join, A7
  1999 annual meeting, 911
  presidential welcome, A11
American Academy of Pediatrics (AAP)
  combination vaccines for childhood immunization: recommendations of Advisory Committee on Immunization Practices, American Academy of Pediatrics, and American Academy of Family Physicians, 1064
  Committee on Adolescence: Adolescent pregnancy-current trends and issues: 1998, 516
  Committee on Anesthesiology: Guidelines for the pediatric perioperative anesthesia environment, 512
  Committee on Bioethics: Fetal therapy—ethical considerations, 1061
  Committee on Child Abuse and Neglect: Guidelines for the evaluation of sexual abuse of children: subject review, 186
  Committee on Community Health Services: Pediatrician's role in community pediatrics, 1304
  Committee on Fetus and Newborn: Surfactant replacement therapy for respiratory distress syndrome, 684

American Academy of Pediatrics (AAP)—*continued*
Committee on Hospital Care
Guidelines for developing admission and discharge policies for pediatric intensive care unit, 840
Role of nurse practitioner and physician assistant in care of hospitalized children, 1050
Committee on Infectious Diseases
Measles immunization in HIV-infected children, 1057
Poliomyelitis prevention: revised recommendations for use of inactivated and live oral poliovirus vaccines, 171
Recommended childhood immunization schedule—United States, January–December 1999, 182
Committee on Injury and Poison Prevention
The hospital record of the injured child and the need for external cause-of-injury codes, 524
Trampolines at home, school, and recreational centers, 1053
Committee on Pediatric AIDS
Disclosure of illness status to children and adolescents with HIV infection, 164
Measles immunization in HIV-infected children, 1057
Planning for children whose parents are dying of HIV/AIDS, 509
Committee on Pediatric Emergency Medicine: Pediatric care recommendations for freestanding urgent care facilities, 1048
Committee on Pediatric Workforce: Culturally effective pediatric care: education and training issues, 167
Committee on Psychosocial Aspects of Child and Family Health: How pediatricians can respond to the psychosocial implications of disasters, 521
Committee on Quality Improvement
Subcommittee on Febrile Seizures: Practice parameter: long-term treatment of child with simple febrile seizures, 1307
Subcommittee on Urinary Tract Infection: Practice parameter: diagnosis, treatment, and evaluation of initial urinary tract infection in febrile infants and young children, 843
Committee on Sports Medicine and Fitness: Trampolines at home, school, and recreational centers, 1053
1997 AAP guidelines for prevention of early-onset group B streptococcal disease (letters), 197, 701
Section on Critical Care: Guidelines for developing admission and discharge policies for pediatric intensive care unit, 840
Task Force on Circumcision: Circumcision policy statement, 686
Task Force on Newborn and Infant Hearing: Newborn and infant hearing loss: detection and intervention, 527
Task Force on Violence: Role of the pediatrician in youth violence prevention in clinical practice and at community level, 173
Technical report: Treatment of child with simple febrile seizures, e86, 1278
Amniocentesis, prenatal and postnatal management of hyperprostaglandin E syndrome after genetic diagnosis from amniocytes, 678
Amoxicillin, once-daily therapy for streptococcal pharyngitis, 47
Anabolic steroids, potential infections related to injection in young adolescents (letter), 694
Anaphylactic reaction to oral cefaclor, e50, 809
Anemia
recombinant human erythropoietin treatment for chemotherapy-related anemia in children, e16, 487
silent cerebral infarcts in sickle cell anemia, 640
Anesthesia
comparison of Mogen and Gomco clamps in combination with dorsal penile nerve block in minimizing pain of neonatal circumcision, e23, 491
efficacy of parental application of eutectic mixture of local anesthetics for intravenous insertion, e79, 1275
guidelines for the pediatric perioperative anesthesia environment (committee statement), 512
pediatric sedation unit (letter), 198
propofol anesthesia for invasive procedures in ambulatory and hospitalized children: experiences in pediatric intensive care unit, e30, 657
Antiangiogenic therapy
interferon and giant cell tumors (commentary), 1282
of recurrent giant cell tumor of mandible with interferon alfa-2a, 1145
Antibodies
long-term remission for disseminated *Mycobacterium avium-intracellulare* complex associated with antibody deficiency, e13, 145
prevalence of IgA-antiendomysium and IgA-antigliadin autoantibodies at diagnosis of insulin-dependent diabetes mellitus in Swedish children and adolescents, 1248
Anticholinergics, central anticholinergic syndrome on therapeutic doses of cyproheptadine, 158
Anticonvulsants, effects of valproate, carbamazepine, and oxcarbazepine on growth and sexual maturation in girls with epilepsy, 588
Antimicrobial resistance
clinical outcome of cephalothin versus vancomycin therapy in treatment of coagulase-negative staphylococcal septicemia in neonates: relation to methicillin resistance and *mec A* gene carriage of blood isolates, e29, 656
factors that predict preexisting colonization with antibiotic-resistant Gram-negative bacilli in patients admitted to pediatric intensive care unit, 719
risk factors and course of illness among children with invasive penicillin-resistant *Streptococcus pneumoniae*, 409
Antimicrobial therapy
anaphylactic reaction to oral cefaclor, e50, 809
antimicrobial prevention of early-onset group B streptococcal sepsis: estimates of risk reduction based on critical literature review, e78, 1275
clinical outcome of cephalothin versus vancomycin therapy in treatment of coagulase-negative staphylococcal septicemia in neonates: relation to methicillin resistance and *mec A* gene carriage of blood isolates, e29, 656
lack of vancomycin-associated nephrotoxicity in newborn infants, e48, 808
1997 AAP guidelines for prevention of early-onset group B streptococcal disease (letters), 197, 701
once- versus twice-daily gentamicin dosing in neonates ≥34 weeks' gestation: cost-effectiveness analyses, 594
once-daily gentamicin dosing in newborn infants, 1228
once-daily therapy for streptococcal pharyngitis with amoxicillin, 47
parents, physicians, and antibiotic use, 395
preventing neonatal group B streptococcal disease: cost-effectiveness in a health maintenance organization and impact of delayed hospital discharge for newborns who received intrapartum antibiotics, 703
relationship between perceived parental expectations and pediatrician antimicrobial prescribing behavior, 711
Antiretroviral therapy
combination therapy with stavudine (d4T) plus didanosine (ddI) in children with human immunodeficiency virus infection, e62, 1021
phase I study of abacavir (1592U89) alone and in combination with other antiretroviral agents in infants and children with human immunodeficiency virus infection, e47, 808
Arginine vasopressin, regulation in enuretic children under fluid restriction, 452
Arrhythmias. *See also* Electrocardiography
cisapride: survey of frequency of use and adverse events in premature newborns, 469
cisapride and proarrhythmia in childhood (letter), 856
Arterial blood gas monitoring, continuous, clinical use in pediatric intensive care unit, 440
Arthritis, psychological symptoms in chronic fatigue and juvenile rheumatoid arthritis, 975
Asthma

day care centers and respiratory health, 753
how does home management of asthma exacerbations by parents of inner-city children differ from NHLBI guideline recommendations?, 422
ipratropium bromide added to asthma treatment in pediatric emergency department, 748
multiple-dosing, placebo-controlled study of budesonide inhalation suspension given once or twice daily for treatment of persistent asthma in young children and infants, 414
socioeconomic variation in asthma hospitalization: excess utilization or greater need? e75, 1274
Attentional problems
comparison of Ritalin and Adderall: efficacy and time-course in children with attention-deficit/hyperactivity disorder, e43, 805
identification of attentional and hyperactivity problems in primary care: report from Pediatric Research in Office Settings and the Ambulatory Sentinel Practice Network, e38, 661
problems in diagnosing attention and activity (commentary), 664
stimulant medication withdrawal during long-term therapy in children with comorbid attention-deficit hyperactivity disorder and chronic multiple tic disorder, 730

Bacteremia. *See also* Sepsis
clinical and hematologic features do not reliably identify children with unsuspected meningococcal disease, e20, 490
intravenous catheter blood cultures: utility and contamination, e52, 809
nosocomial infections in pediatric intensive care units in United States, e39, 804
Bartter's syndrome (commentary), 663
Basic fibroblast growth factor, antiangiogenic therapy of recurrent giant cell tumor of mandible with interferon alfa-2a, 1145
Bed wetting. *See also* Toilet training
osmoregulation and desmopressin pharmacokinetics in enuretic children, 65
regulation of arginine vasopressin in enuretic children under fluid restriction, 452
review of bowel and bladder control development in children: how gastrointestinal and urologic conditions relate to problems in toilet training, 1346
sleep of children with enuresis: polysomnographic study, 1193
Bedding, infant mechanical suffocation deaths in United States, 1980–1997, e59, 1020
Behavior
comparison of Ritalin and Adderall: efficacy and time-course in children with attention-deficit/hyperactivity disorder, e43, 805
cranial ultrasound abnormalities identified at birth: relationship to perinatal risk and neurobehavioral outcome, e41, 804
differential calming responses to sucrose taste in crying infants with and without colic, e68, 1024
experience, brain, and behavior: importance of a head start (commentary), 1031
hypoglycemia and propranolol in pediatric behavioral disorders, 1290
identification of attentional and hyperactivity problems in primary care: report from Pediatric Research in Office Settings and the Ambulatory Sentinel Practice Network, e38, 661
observers of childhood sexual behavior (letter), 853
problems in diagnosing attention and activity (commentary), 664
social, emotional, and behavioral functioning of children with cancer, 71
Behçet's syndrome, thalidomide-responsiveness in infant with, 1295
Benchmarking
quality improvement methods in clinical medicine, 147 (abstract), 203
